

## Holiday Programme Progress Report 2018/19

This has been a great year at Track Academy in terms of building a coherent and focused holiday programme, with the objectives of

1. Increasing rates of physical activity amongst young people
2. Increasing the number of young people who say they care about doing well at school
3. Providing new opportunities and experiences for disadvantaged young people

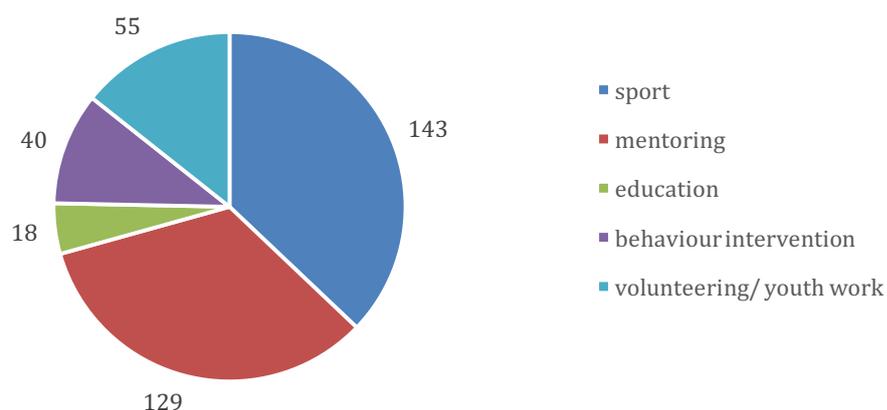

The holiday programme has been delivered during the following holidays:

- Autumn Half Term (19-29 October 2018)
- Christmas (21 Dec- 7 Jan 2019)
- Spring Half Term (12-25 Feb 2019)
- Easter (5-25 April 2019)
- Summer Half Term (24 May- 3 June)
- Summer (19 July- 1 September)- to be delivered

To date the programme has engaged 505 young people. 22% of these have been new members engaged primarily through school taster sessions run the week before holidays with local partner schools. 78% of those engaged during school holidays have continued to attend Track Academy and are still active members today.

Session delivery during the school holidays has been very strong, focusing on athletics and other sports 3 days a week, education and mentoring support and family activities and community events.

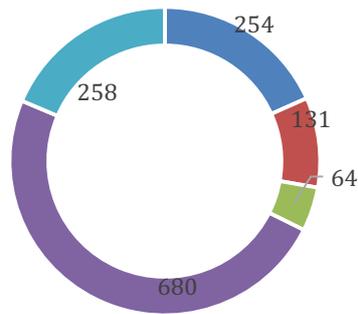

Holiday Programme: Number of Sessions by Type

Hours of delivery totaled 1387 hours, with Easter holiday delivery being the most to date. Easter also had the most participant and this corresponds to our experience that good weather and the end of the winter have a big influence on participation, especially as this is the time of year when Track Academy moved from indoor athletics to use of the outdoor track.

## Holiday Programme: Hours of Activity Delivered, by holiday scheme

■ October half term ■ xmas ■ feb half term ■ Easter ■ summer half term

54% of members participating during school holidays in 2018/19 were female and 3 reported as having a disability. The majority of attendees were aged 12-16, although the full age range was 2-21 years. The majority of attendees were from Black African and Black Caribbean heritage.

We are really pleased to have had the support of Wembley Park Community Fund and Wembley National Stadium Trust to deliver the school holiday programme, and a local food partner, who is providing meals during the Summer programme, to help us tackle holiday hunger.

Qualitative data illustrating the impact against our outcomes will be available after the Summer programme is completed, through the annual participant survey which is scheduled to be delivered in September 2019.
